Re: Pre-MUR 554 (Terri Jones)

Dear Mr. Campbell:

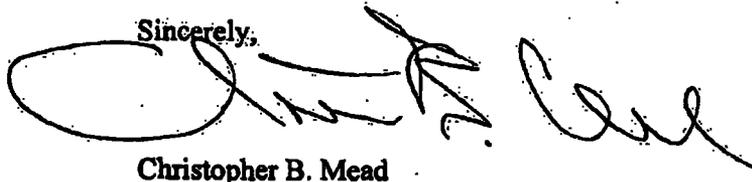

I am pro bono counsel for Terri Jones. Ms. Jones requests Pre-Probable Cause Conciliation. She has cooperated fully with the Department of Justice in its investigation of Congressman Jackson's campaign financing violations. At the Congressman's explicit direction, she prepared false reports to the FEC over a number of years. She knew what she was doing was wrong. She did it because the Congressman threatened to fire her, and she needed her job. She has asked me to send you the following personal statement:

I did what was instructed because I am my sole support and had no other means of paying my mortgage and bills. I tried to find other employment many times over this period because I felt this was the only way I would not have to file the reports anymore and I did seek employment but was never successful. I had no other source of income except to continue my employment with him and knew that if I lost my job that I would eventually end up homeless and without any income. It was a very difficult time for me because often I would be very stressed when I knew that it was time to reconcile and file the report. Many times when I was given instructions on how to report items and we argued many times.

I have always regretted being involved in the report process with him because I knew what he was doing was wrong. I pray that you will understand my reason for following his orders.

Ms. Jones is available to meet with you to discuss her situation.

Sincerely,

Christopher B. Mead
